

Micrometer Inspection Gauge Block Set

- Rectangular gauge block set for inspection of micrometers
- Made of ceramic
- Test set for micrometers 0-25 mm
- Blocks per set: 10
- Block sizes:
2,5 / 5,1 / 7,7 / 10,3 / 12,9 / 15 / 17,6 / 20,2 / 22,8 / 25 mm,
1 pc. optical parallel.
- Grade: 0
- inclusive inspection certificate
- optional: calibration certificate.
- Ceramic gauge blocks are extremely wear and corrosion resistant and provide an excellent dimensional stability
- Meets ISO3650

Metric Rectangular Gauge Blocks and Gage Block Sets

Additional gauge block sets and single rectangular metric gauge blocks are available on request.

Gauge Block Holder

- Gauge block holder for inspection of micrometers
- A series of gauge blocks can be fixed
- Clamping range 0-200 mm
- Can be used in both horizontally and vertically arrangement
